

ARQ Protocol Comparison

Stop-and-Wait vs Go-Back-N vs Selective Reject

Feature	Stop-and-Wait	Go-Back-N	Selective Reject
Frames sent before ACK	1	Multiple	Multiple
Sliding Window	No	Yes	Yes
Receiver Buffer	Not Needed	Not Needed	Required
Retransmission	Single frame	Error frame + all following frames	Only error frame
Complexity	Low	Medium	High
Efficiency	Lowest	Better	Best
Bandwidth Utilization	Poor	Good	Excellent
